BIO-X HUMIDIFIER ACCESSORIES

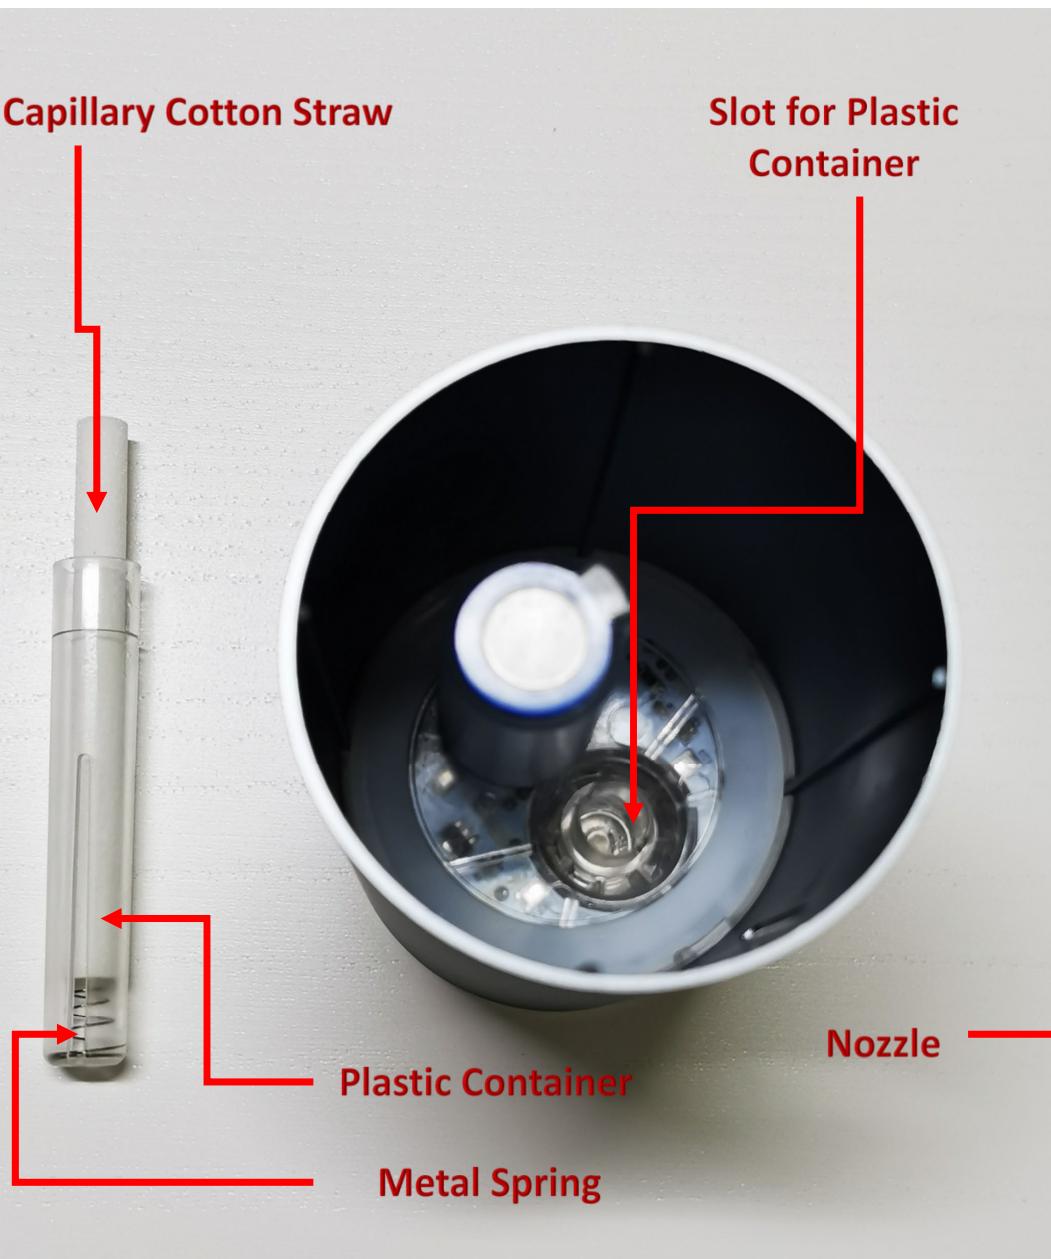

- Bio-X Humidifier
- Outer Box
- User Manual
- Type-C Charging Cable
- Spare Capillary Cotton Straw

HOW TO MAINTAIN BIO-X HUMIDIFIER

- 1st time use:-
fill up water tank full; Wait for the cotton straw to soak the liquid; and wobble the humidifier a bit
- After switching on:-
if the emission is weak, it means:
Either ➔ the cotton straw is not fully soaked with liquid
Or ➔ the battery is weak
- Battery charging time is around 2.5 hours
- DO NOT overcharge battery
- When connecting to a charging cable, it will automatically switch off after:
- 5 hours under continuous mode & 10 hours under interval mode
- Fully charged battery will last for:
- 2 hours under continuous mode & 4 hours under interval mode

HOW TO REPLACE COTTON STRAW

- Firmly pull out the plastic container
- Make sure the metal spring inside the plastic container remains intact.
- Wash & rinse the cotton straw with clean water if the nozzle is clotted

- When inserting back, make sure to push the plastic container all the way in.
- Use a cotton bud dipped with water or mild soap to gently clean the nozzle
